# NOISE-INDUCED HEARING LOSS IS PERMANENT...

## SOME PREVENTION MEASURES:

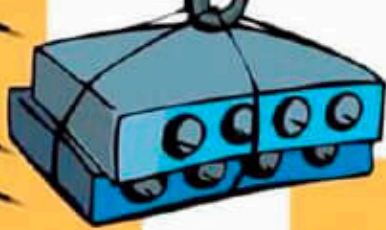

- Noise should be controlled at the source.
- A hearing test should be performed periodically.
- Earplug should be used when necessary.

# ROTATING AND MOVING MACHINERY

As a machine and equipment operator, please check the equipment before using and ensure the following issues:

All machine covers are installed in their places tightly.

All cutting/pressing points and rotating equipment are correctly protected.

I have the right tools to ensure the work is done safely.

All emergency stop buttons and wires are in their places.

All emergency stop buttons and wires are working correctly.

Cleaning and order in the equipment side are in high standard.

I am specialized in the equipment I use and I am authorized to use this equipment.

## ROTATING AND MOVING Maintenance

As a maintenance personnel, I am responsible for returning the equipment to the production department in a good condition and so:

After completing the work, I install all machine covers in their places.

The work I do does not damage the equipment or affect its safety features.

Before returning the equipment for use, I report any problem to my chief.

I ensure that all locking devices are working correctly.

I clean the area where I work.

After completing the work and when the power supply can be opened, I inform the related person.

**KEEP YOUR FINGERS  
AWAY FROM PRESSING  
POINTS**

In marble production and shaping facilities, many accidents occur as a result of contact with moving and rotating equipment.

Zero Damage means keeping your hands and fingers away from pressing points and moving equipment.

In situations where there is a risk of injury, it is forbidden to place hand and fingers on moving or rotating equipment.

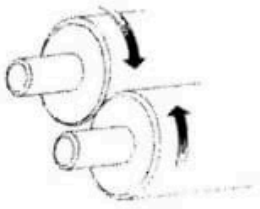

Promote Zero Damage in any work.

**COVER CATEGORIES**

Including the following types, there are many different types of machine covers:

- Fixed Cover
- Distanced Cover
- Control Covers
- Barricades and
- Adjustable Covers

A missing cover can lead to a missing hand.
